EasyCheck

EasyCheck Digital Evaluation Process

EasyCheck

Problems with existing written answer-sheet evaluation process

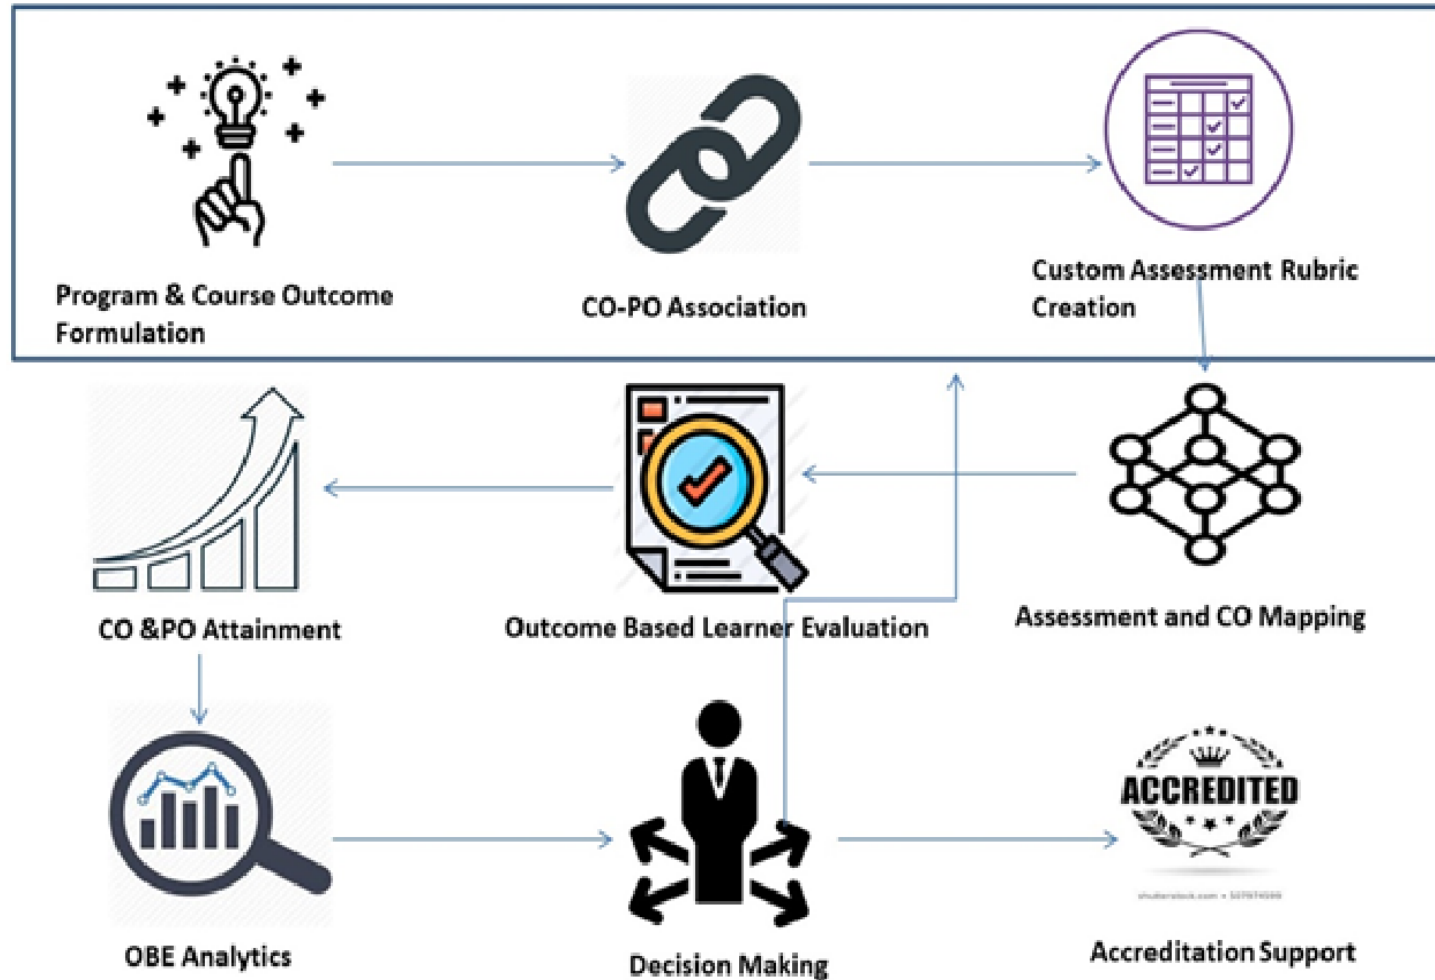

- More Administration
- Logistics
- Storage
- Physical Handling
- Manual Data Entry
- Delay in Result Processing
- Delay in Re-evaluation

Why EasyCheck?

- Completely Digital Process
- Less Administration
- Secure Digital Storage
- No Physical Handling
- No Logistics
- No Manual Data Entry
- Quick Result Processing
- Quick Result Evaluation Process

OBE Tool

OBE Process

OBE Tool

OBE Tool follows Bloom's Taxonomy.

It is student centric instruction model which focuses on measuring student performance via course outcomes. Course outcomes are mapped to assessment rubrics. The OBE model measures the progress of the graduate by following

- Program Educational Objectives (PEO)
- Program Specific Outcomes (PSO)
- Program Outcomes (PO)
- Course Outcomes (CO)

Why OBE Tool?

- Integrated with ERP and LMS Solution
- OBE Platform can be set up as institute process
- Accreditation based Reports
- Learner centric outcome based education
- Analytics reports to take data-backed decisions
- Seamless User Experience
